

Marvin Macabale

Aspiring Web Developer

Marvin is a third-year Computer Science student with experience in Java, MySQL, and C#. Passionate about coding and problem-solving, he's currently exploring web design to blend his technical and creative skills. Outside of coding, he enjoys basketball and online gaming, always eager to learn and grow in tech.

Experience

● STUDENT INFORMATION SYSTEM

Project | Cavite State University

Developed the user interface for a web-based system to manage student records, grades, and course registration.

Role: Front-End Developer

- Designed and implemented the UI using JavaFX (or Swing).
- Created interactive forms for student registration, course enrollment, and grade viewing.
- Focused on UI/UX design to ensure accessibility and responsiveness.

● BUBBLE

Project | Cavite State University

A collaborative project blending photo and video editing with UI design to create an immersive, visually striking interface.

Role: Front-End Developer & UI Designer

- Designed and implemented the front-end using .NET 6, Forms, and C#.
- Designed a fantasy-inspired UI with modern elements, influenced by Genshin Impact and Valorant.
